■ The Great Space Journey

Alex loved space more than anything else. Every night, Alex looked up at the sky and wondered how stars were born and why planets never fall.

One quiet evening, a glowing spaceship landed softly near Alex’s window. Inside was Professor Comet, a friendly space guide.
“Would you like to explore the universe?” he asked.

They zoomed past the Moon, learned how astronauts float, and visited Mars where robots search for signs of water.
Professor Comet explained how the Sun gives light and warmth to Earth.

Alex also learned that teamwork helps astronauts stay safe in space.
When the journey ended, Alex returned home knowing science makes space exploration possible.

■ The Secret of Dinosaur Valley

One morning, Alex found a mysterious map leading to Dinosaur Valley.
With curiosity and courage, Alex followed it.

Huge dinosaurs walked slowly while smaller ones ran quickly.
A wise Triceratops explained how plant-eaters and meat-eaters lived differently.

Alex learned how fossils are formed and why dinosaurs became extinct.
The journey taught Alex that learning about the past helps us understand the future.

■ Princess of the Caring Kingdom

Princess Alex ruled a peaceful kingdom where everyone mattered.
She believed listening was more powerful than giving orders.

When the river dried up, Princess Alex gathered builders, farmers, and children.
Together, they found solutions and saved the kingdom.

The kingdom bloomed again, and Princess Alex learned leadership means helping others grow.

■ The Everyday Superhero

Alex dreamed of becoming a superhero.
One day, Alex discovered the real power was kindness.

Alex helped neighbors, protected nature, and solved problems with patience.
People smiled and felt safe.

Alex realized superheroes don’t need superpowers—just a big heart and courage.
